Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Monday 01 Feb 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Overnight rain bringing heavy downpours and possible snow north.

This Evening and Tonight:
Mostly dry and cloudy during the evening before a large area of rain from the southwest advances overnight. This will bring heavy downpours in some areas, and possibly snow to the Peak District and North Staffordshire Moors. Winds strengthening. Minimum temperature 1 deg C (34 deg F).

Tuesday:
Rain clearing to the northeast during the morning allowing for a dry spell, followed by a band of showers. Breezy and turning mild with a rapid thaw of any snow. Maximum temperature 11 deg C (52 deg F).

Outlook for Wednesday to Friday:
Mostly dry on Wednesday with scattered showers and bright spells. Thursday and Friday will see further showers mixed with dry intervals. Becoming colder on Friday.
